## ELECTRICAL WIRING SUPPLEMENT

### FOREWORD

This publication is a supplement to the Electrical Wiring Manual Pub. No. PHWE8604, PHWE8604-1, PHWE8604-2 and contains only additions and changes to the original issue.

It is recommended that all service mechanics engaged in the servicing of the vehicle refer to the following publications as well as this manual.

#### WORKSHOP MANUAL

### WIRING HARNESS CONFIGURATION DIAGRAMS

Wiring configuration diagram				Description of changes
Connector symbol	No.	Vehicle type	Reference page	
INSTRUMENT	2-1	L.H. drive vehicles for Europe	2-2	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with remote-controlled mirrors, a remote-controlled mirror related connector has been added.</li> </ul>
	2-3	L.H. drive vehicles for General Export	2-4	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with power windows, a power window circuit related connector has been added.</li> <li>In conjunction with the classification addition of vehicles with door lamps, a door lamp circuit related connector has been added.</li> <li>In conjunction with the classification addition of vehicles with the 4-lamp type of headlamps, a 4-lamp type headlamp connector has been added.</li> <li>In conjunction with the classification addition of vehicles with remote-controlled mirrors, a remote-controlled mirror related connector has been added.</li> <li>In conjunction with the classification addition of vehicles with the central locking system (all doors and tailgate), a central locking system (all doors and tailgate) circuit related connector has been added.</li> </ul>
	2-4	R.H. drive vehicles for General Export	2-8	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with an automatic transmission, an over-drive circuit related connector has been added.</li> <li>In conjunction with the adoption of the inclinometer, a related connector has been added.</li> <li>In conjunction with the classification addition of vehicles with the electronic tuning radio with tape player, an electronic tuning radio with tape player connector has been added.</li> <li>In conjunction with the classification addition of vehicles with remote-controlled mirrors, a remote-controlled mirror related connector has been added.</li> <li>In conjunction with the classification addition of vehicles with the central locking system (all doors and tailgate), a central locking system (all doors and tailgate) circuit related connector has been added.</li> </ul>
	2-5	Vehicles for Australia	2-12	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with remote-controlled mirrors, a remote-controlled mirror related connector has been added.</li> <li>A vacuum switch has been added to diesel models.</li> </ul>

# OUTLINE OF CHANGES – Wiring Harness Configuration Diagrams

1-3

Wiring configuration diagram				Description of changes
Connector symbol	No.	Vehicle type	Reference page	
<b>B</b>  ENGINE ROOM UNDER FLOOR	3-4	Vehicles for Europe with MPI engine	2-16	<ul style="list-style-type: none"> <li>In conjunction with the change of the MPI control unit, a connector has been added.</li> <li>A resistor has been abolished.</li> </ul>
	3-5	Vehicles for Europe with diesel engine	2-18	<ul style="list-style-type: none"> <li>In conjunction with the addition of the engine coolant temperature warning lamp, an engine coolant temperature switch has been added.</li> </ul>
	3-8	2WD-R.H. drive vehicles for General Export with petrol engine (4-door models)	2-20	<ul style="list-style-type: none"> <li>In conjunction with the adoption of the dual horn, a connector has been added.</li> <li>In conjunction with the adoption of the step lamp, connector has been added.</li> <li>In conjunction with the classification addition of vehicles with motor-driven roof blind, a front wiring harness and roof wiring harness coupling connector has been added.</li> </ul>
<b>C</b>  ROOF TAIL GATE REAR SIDE	4-1	Vehicles for Europe	2-22	<ul style="list-style-type: none"> <li>In conjunction with the abolition of the room lamp wiring harness, the connector coupling the roof wiring harness and the room lamp wiring harness has been abolished.</li> </ul>
	4-2	L.H. drive vehicles for General Export (4-door models)	2-24	
	4-3	R.H. drive vehicles for General Export (4-door models) – except crystal-light roof models	2-26	
	4-4	Vehicles for General Export (5-door models)	2-28	
	4-5	Vehicles for Australia	2-30	
	4-6	Vehicles for Europe (4-door models)	2-32	
	4-7	L.H. drive vehicles for General Export with crystal-light roof (4-door models)	2-34	
	4-8	R.H. drive vehicles for General Export with crystal-light roof (4-door models)	2-36	

**SINGLE PART INSTALLATION POSITION**

Location of change	Vehicle type	Reference page	Description of change
Relay	Vehicles for General Export with the 4-lamp type headlamps	3-2	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with the 4-lamp type headlamps, a headlamps relay has been added.</li> </ul>
	Vehicles for General Export with central locking system (all doors and tailgate)	3-2	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with the central locking system (all doors and tailgate), a door lock control unit and door lock power relay have been added.</li> </ul>
	Vehicles for General Export with automatic transmission	3-2	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with an automatic transmission, a starter relay and overdrive relay have been added.</li> </ul>
	Vehicles for General Export with motor driven roof blind	3-2	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with motor-driven roof blind, a motor-driven roof blind relay has been added.</li> </ul>
	Vehicles for Australia with diesel engine	3-3	<ul style="list-style-type: none"> <li>A vacuum switch relay has been added.</li> </ul>
Diode and condenser	L.H. drive vehicles for General Export with door lamp	3-3	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of L.H.-drive vehicles with the door lamp, a diode (for the door lamp) has been added.</li> </ul>
	Vehicles for General Export with motor driven roof blind	3-3	<ul style="list-style-type: none"> <li>In conjunction with the classification addition of vehicles with the motor-driven roof blind, a diode (for the motor-driven roof blind) has been added.</li> </ul>
Centralized earth points	Vehicles for General Export with motor driven roof blind	3-4	<ul style="list-style-type: none"> <li>An earth point has been added to the roof wiring harness.</li> </ul>

# OUTLINE OF CHANGES – Circuit Diagram

1-5

## CIRCUIT DIAGRAM

Circuit diagram			Description of changes
Circuit	No.	Vehicle type	
STARTING	1-1	Vehicles for General Export with petrol engine	<ul style="list-style-type: none"> <li>In conjunction with the classification addition, the starting circuit has been changed.</li> </ul>
	1-3	Vehicles with diesel engine	<ul style="list-style-type: none"> <li>In conjunction with the change of the wire colour, the starting circuit has been changed.</li> </ul>
IGNITION	2-2	Except vehicles with MPI	<ul style="list-style-type: none"> <li>In conjunction with the addition of a circuit to models (without tachometer) equipped with the feedback carburettor, as well as the change of the battery's negative (-) cable, the ignition circuit has been changed.</li> </ul>
FEEDBACK CARBURETOR	6	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the addition of a circuit to models not equipped with the tachometer, the feedback carburettor circuit has been changed.</li> </ul>
MPI	7-1	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the change of the MPI control unit, the MPI circuit has been changed.</li> </ul>
OVERDRIVE	8-1	Vehicles for General Export	<ul style="list-style-type: none"> <li>In conjunction with the classification addition, an overdrive circuit has been newly added.</li> </ul>
HEADLAMP	9-4	L.H. drive vehicles for General Export with the 4-lamp type headlamps	<ul style="list-style-type: none"> <li>In conjunction with the classification addition, headlamps circuit has been added.</li> </ul>
	9-5	R.H. drive vehicles for General Export with the 4-lamp type headlamps	<ul style="list-style-type: none"> <li>In conjunction with the classification addition, a headlamps circuit has been added.</li> </ul>
REAR FOG LAMP	13-1	Vehicles for Europe except Norway and Sweden	<ul style="list-style-type: none"> <li>In conjunction with the change of the rear fog lamp switch and the battery's negative (-) cable, the rear fog lamp circuit has been changed.</li> </ul>
	13-2	Vehicles for Norway Sweden	<ul style="list-style-type: none"> <li>In conjunction with the change of the rear fog lamp switch and the battery's negative (-) cable, the rear fog lamp circuit has been changed.</li> </ul>
ROOM LAMP	14-1	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the abolition of the room lamp wiring harness and the change of the battery's negative (-) cable, the room lamp circuit has been changed.</li> </ul>
	14-2	Vehicles for General Export	<ul style="list-style-type: none"> <li>In conjunction with the abolition of the room lamp wiring harness, the room lamp circuit has been changed.</li> </ul>
	14-3	Vehicles for Australia	<ul style="list-style-type: none"> <li>In conjunction with the change of the battery's negative (-) cable, the room lamp circuit has been changed.</li> </ul>
	14-4	Vehicles for General Export with crystal-light roof	<ul style="list-style-type: none"> <li>In conjunction with the classification addition, the room lamp circuit has been changed.</li> </ul>

Circuit diagram			Description of changes
Circuit	No.	Vehicle type	
ILLUMINATION LAMP	15-1	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the addition of an illumination lamp for the rear wiper switch, hazard lamp switch, defogger switch, tailgate lock/unlock switch, rear heater switch, rear heater sub switch and rear fog lamp switch, the illumination lamp circuit has been changed.</li> </ul>
	15-2	Vehicles for General Export	<ul style="list-style-type: none"> <li>In conjunction with the addition of an illumination lamp for the rear wiper switch, hazard lamp switch, defogger switch, tailgate lock/unlock switch, rear heater switch and rear heater sub switch, the illumination lamp circuit has been changed.</li> </ul>
	15-3	Vehicles for Australia	<ul style="list-style-type: none"> <li>In conjunction with the addition of an illumination lamp for the rear wiper switch, hazard lamp switch, defogger switch, tailgate lock/unlock switch, rear heater switch and rear heater sub switch, the illumination lamp circuit has been changed.</li> </ul>
TURN-SIGNAL LAMP AND HAZARD LAMP CIRCUIT	16-1	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the change of the hazard switch, the turn signal lamps and hazard lamp circuit has been changed.</li> </ul>
	16-2	Vehicles for General Export and Australia (diesel engine) without tachometer	<ul style="list-style-type: none"> <li>In conjunction with the change of the hazard switch, the turn signal lamps and hazard lamp circuit has been changed.</li> </ul>
	16-3	Vehicles for General Export and Australia with tachometer	<ul style="list-style-type: none"> <li>In conjunction with the change of the hazard switch, the turn signal lamps and hazard lamp circuit has been changed.</li> </ul>
METER	20-3	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the addition of the engine coolant temperature warning lamp, the meter circuit has been changed.</li> </ul>
	20-7	Vehicles for Australia	<ul style="list-style-type: none"> <li>In conjunction with the addition of the vacuum switch and vacuum switch relay, a meter circuit has been added.</li> </ul>
	20-8	R.H. drive vehicles for General Export with automatic transmission	<ul style="list-style-type: none"> <li>In conjunction with the addition of the tailgate lock/unlock switch, a meter circuit has been added.</li> </ul>
CENTRAL LOCKING SYSTEM	22-2	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the change of the power-supply circuit of the door lock control unit, the central locking system circuit has been changed.</li> </ul>
	22-3	Vehicles for General Export	<ul style="list-style-type: none"> <li>In conjunction with the classification addition, a central locking system circuit has been added.</li> </ul>
	22-4	Vehicles for Australia	<ul style="list-style-type: none"> <li>In conjunction with the change of the power-supply circuit of the door lock control unit, the central locking system circuit has been changed.</li> </ul>

# OUTLINE OF CHANGES – Circuit Diagram

1-7

Circuit diagram			Description of changes
Circuit	No.	Vehicle type	
HEATER	23-2	Vehicles for General Export (4-door model)	<ul style="list-style-type: none"> <li>In conjunction with the change of the rear heater blower main switch and the rear heater blower sub switch, the heater circuit has been changed.</li> </ul>
AIR CONDITIONER	24-11	Built-in type [Mini bus for GCC with 4G63 engine and Mini bus for General Export with 4D56 engine (4-door model)]	<ul style="list-style-type: none"> <li>In conjunction with the change of the rear heater blower main switch and the rear heater blower sub switch, the air conditioner circuit has been changed.</li> </ul>
	24-12	Built-in type [R.H. drive vehicles (Mini bus) for General Export with 4G63 engine and 5-speed manual transmission]	<ul style="list-style-type: none"> <li>In conjunction with the change of the rear heater blower main switch and the rear heater blower sub switch, the air conditioner circuit has been changed.</li> </ul>
WIPER AND WASHER	25-2	Vehicles for General Export with rear wiper	<ul style="list-style-type: none"> <li>In conjunction with the change of the rear wiper switch, the wiper-and-washer circuit has been changed.</li> </ul>
DEFOGGER	26-1	Vehicles for General Export	<ul style="list-style-type: none"> <li>In conjunction with the change of the defogger switch, the defogger circuit has been changed.</li> </ul>
RADIO	27-6	R.H. drive vehicles for General Export with automatic transmission	<ul style="list-style-type: none"> <li>In conjunction with the addition of specifications for the electronic turning radio with tape player, an radio circuit has been added.</li> </ul>
CIGARETTE LIGHTER AND CLOCK	28-1	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the change of the illumination circuit of the clock, the cigarette lighter and clock circuit has been changed.</li> </ul>
	28-2	Vehicles for General Export and Australia	<ul style="list-style-type: none"> <li>In conjunction with the change of the illumination circuit of the clock, the cigarette lighter and clock circuit has been changed.</li> </ul>
CENTRALIZED JUNCTION	34	All models	<ul style="list-style-type: none"> <li>In conjunction with the classification addition, the fusible-link box, multi-purpose fuse, fuse block and relay box have been partially changed.</li> </ul>
MOTOR-DRIVEN ROOF BLIND	35	Vehicles for General Export	<ul style="list-style-type: none"> <li>In conjunction with the adoption of the motor-driven roof blind, a motor-driven roof blind circuit has been added.</li> </ul>
REMOTE CONTROLLED MIRROR	36-1	Vehicles for Europe	<ul style="list-style-type: none"> <li>In conjunction with the change of the shape of the remote-controlled mirror motor connector, the remote-controlled mirror circuit has been changed.</li> </ul>
	36-2	Vehicles for General Export	<ul style="list-style-type: none"> <li>In conjunction with the adoption of the remote-controlled mirrors circuit has been added.</li> </ul>
	36-3	Vehicles for Australia (EXCEED)	<ul style="list-style-type: none"> <li>In conjunction with the change of the shape of the remote-controlled mirror motor connector, the remote-controlled mirror circuit has been changed.</li> </ul>

**NOTES**

## CIRCUIT DIAGRAM – Starting

## 1. STARTING CIRCUIT

## 1.1 Vehicles for General Export with petrol engine

## Remark

The chain line (---) is applicable to vehicles with an automatic transmission.

## Wire colour code

B: Black	Br: Brown	G: Green
Li: Light Blue	O: Orange	P: Pink
Gr: Gray	L: Blue	Lg: Light green
R: Red	Sb: Silver	Y: Yellow
W: White		

## 1-3 Vehicles with diesel engine

37G0046

## Remark

The \*1 symbol indicates vehicles with super-quick glow.

## Wire colour code

B Black	Br Brown	G Green	Gr Gray	L Blue	Lg Light green
L1 Light Blue	O Orange	P Pink	R Red	Sb Silver	Y Yellow

## 2. IGNITION CIRCUIT

## 2-2 Except vehicles equipped with MPI

37Q0253

## Remarks

- (1) The chain line (---) is applicable to vehicles for Europe and Australia.
- (2) The two point chain line (—·—) is applicable to vehicles for Europe without tachometer.
- (3) The ★ symbol wire diameters and colour codes are applicable to vehicles with 1.6L and 2.0L (P13VJLZL6 only) engine.

## Wire colour code

B:	Black	Br:	Brown	G:	Green	Gr:	Gray	L:	Blue	Lg:	Light green
Ll:	Light Blue	O:	Orange	P:	Pink	R:	Red	Sb:	Silver	Y:	Yellow

## 6 FEEDBACK CARBURETOR CIRCUIT (Vehicles for Europe)

## Remarks

- (1) The symbols (1), (2), etc. indicate connections to the same number on the page to the right (or left).  
(Thus (1) on the right page is connected to (1) on the left page.)
- (2) The "5 symbol is applicable for vehicles without tachometer.

## CIRCUIT DIAGRAM – Feedback Carburetor

4-7

## Wire colour code

B: Black Br: Brown G: Green Gr: Gray W: White  
L1: Light Blue O: Orange P: Pink R: Red  
L: Blue Lg: Light green Sb: Silver Y: Yellow

## 7 MPI CIRCUIT

## 7-1 Vehicles for Europe

## CIRCUIT DIAGRAM – MPI

4-9

## 9 HEADLAMP CIRCUIT

## 9-4 L.H. drive vehicles for General Export with the 4-lamp type headlamps

Remark

The symbols (1), (2), etc. indicate connections to the same number on the page to the right (or left).

Column switch

## Wire colour code

B - Black	Br. - Brown	G - Green	Gr. - Gray	L - Blue	Lg - Light green	W - White
LB - Light blue	O - Orange	P - Pink	R - Red	Sb. - Silver	Y - Yellow	

## 9-5 R.H. drive vehicles for General Export with the 4-lamp type headlamps

## Remark

The symbols (1), (2), etc. indicate connections to the same number on the page to the right (or left).

Column switch

## Wire colour code

B:	Black	Br:	Brown	G:	Green	Gr:	Gray	L:	Blue	Lg:	Light green
LT:	Light Blue	O:	Orange	P:	Pink	R:	Red	Sb:	Silver	Y:	Yellow

## 13 REAR FOG LAMP CIRCUIT

## 13-1 Vehicles for Europe except Norway, Sweden and Iceland

# CIRCUIT DIAGRAM – Rear Fog Lamp

4-17

## Remarks

- (1) The  $\star$  symbol wire diameter, colour code and connector are applicable to L.H. drive vehicles equipped with the 4G32 engine.
- (2) The  $\Delta$  symbol wire diameters and colour codes are applicable to diesel-powered vehicles.
- (3) The broken line (---) indicates R.H. drive vehicles.
- (4) The chain line (—) indicates L.H. drive vehicles.
- (5) Wires identified before “/” are installed on L.H. drive vehicles and those after “/” on R.H. drive vehicles.
- (6) Connector connection between the connector (A-19) and connector (A-20) are applicable to vehicles for Switzerland.
- (7) The earth point No. 15 is applicable to R.H. drive vehicles.
- (8) The symbols ①, ②, etc. indicate connections to the same number on the page to the right (or left).
- (9) The  $\star$  symbol wire diameters and colour codes are applicable to vehicles with 1.6L and 2.0L (P13VJLZL6 only) engine.

4-27

## Remarks

- (1) The broken line (----) is applicable to vehicles without rear speaker.
- (2) The **□** symbol wire diameters and colour codes are applicable to R.H. drive vehicles.
- (3) The symbols **①**, **②**, etc. indicate connections to the same number on the page to the right (or left).  
(Thus, **①** on the right page is connected to **①** on the left page.)

## 15 ILLUMINATION LAMP CIRCUIT

## 15-1 Vehicles for Europe

## Remarks

- (1) The  $\Delta$  symbol wire diameters and colour codes are applicable to diesel-powered vehicles.
- (2) The chain line (---) is applicable to vehicles equipped with the inclinometer.
- (3) The two point chain line (—·—) is applicable to vehicles equipped with the heated seat.
- (4) The  $\otimes$  symbol wire diameter, colour code and connector are applicable to L.H. drive vehicles equipped with the 4G32 engine.
- (5) The three point chain line (----) is applicable to vehicles equipped with the cigarette lighter or rear heater.
- (6) The symbol (1), (2), etc. indicate connections to the same number on the page to the right (or left).
- (7) The  $\star$  symbol wire diameters and colour codes are applicable to vehicles with 1.6L and 2.0L (P13VJLZL6 only) engine.

## Wire colour code

37G0241

## 15-2 Vehicles for General Export

## Remarks

- (1) The  $\Delta$  symbol wire diameters and colour codes are applicable to diesel-powered vehicles.
- (2) The  $\square$  symbol wire diameters and colour codes are applicable to R.H. drive petrol-powered vehicles.
- (3) The  $\diamond$  symbol wire diameters and colour codes are applicable to L.H. drive petrol-powered vehicles and diesel-powered vehicles.
- (4) The two-point chain line (----) is applicable to R.H. drive vehicles.
- (5) The three-point chain line (---) is applicable to vehicles without defogger.
- (6) The four-point chain line (-----) is applicable to vehicles with defogger.
- (7) The symbols 1, 2, etc. indicate connections to the same number on the page to the right (or left).
- (8) The broken line (---) is applicable to 4-door models.
- (9) The chain line (--) is applicable to 5-door models.
